Care and Maintenance

- ✘ Do not touch the lenses or let the kit fall down as the filters are very fragile.
- ✓ To clean the filters please use microfiber cloth piece .
- ✓ Please make sure the filters are properly attached to the projector.

Imagining is everything

Shipping Contents

This package contains 2 units of Left and Right Filters marked as L for Left and R for Right and a Infitec HDMI converter mini

Imaging is everything

Setting of projectors

1. Arrange the two projectors in a stacking position or side by side position. If you have a stacking stand please use it for stable and safe use.
2. Connect the necessary cables and power supply. The INFITEC HDMI converter mini has
2 X Outputs for projectors
1 X Input for blu-ray player or media input
3. Please attach the filters after the calibration of the projectors is done.

Imagining is everything

Calibration

1. After setting the projectors in stacking mode or side by side mode, turn ON the projectors and press the "MENU" button.
2. In the "MENU" select the "FUNCTION" option and further select "REMOTE CODE"
3. Select on one projector remote code as A and other as B as shown in the picture.
4. Then do the Geometric Calibration so that both the projectors images stack on each other as shown in the pictures.
